

The following exhibition shows the preliminary proposals for a residential development of 46 dwellings, to be constructed by Summerfield Homes, on land to the east of The Shires, Bircham Road, Alcombe, Minehead.

These proposals have been prepared for Public Consultation before the design is finalised and prior to the submission of a Full Planning Application, to enable members of the public to provide us with their views and comments on the sketch scheme.

All the dwellings are to be constructed as "open market" properties for sale. However, this site is to be developed in conjunction with a separate site for Affordable Housing at Silvermead, Alcombe, for Magna Housing Association.

Proposals for the affordable housing can be viewed at the accompanying Magna Housing Association Exhibition
